

FEATURE ENRICHED TRADING EXCHANGE

ENCRYBIT

H O N G K O N G

Encrybit is backed up by M-Connect Solutions,
Software development agency established in year 2009.

WHAT IS ENCRYBIT?

Encrybit is a new cryptocurrency exchange with bells and whistles. The key focus is to be secure, agile and user-friendly. It offers a streamlined experience for crypto investors and traders alike – but does not compromise on features. Encrybit users enjoy market leading tools for research, technical analysis and trading.

REAL TIME CRYPTO EXCHANGE ISSUES

According to our recent survey of 1k+ cryptocurrency traders, which can be found here on [Statista](#), the World's largest statistical portal, some important problems with existing exchanges were raised by traders including:

SECURITY CONCERN

Security concerns in light of past hacks

CUSTOMER SUPPORT

Poor customer support, e.g. for verification, registration, fund movements

INDECISIVE POLICIES

Indecisive policies on certain things creating issues for traders, it includes unstable airdrop and fork updates, unexpected changes in trading fees and exchange policies.

TRADING FEES

High trading and withdrawal fees

FLUCTUATION

Exchange going down or hanging for hours in volatile markets resulting in huge losses for traders.

USER ENGAGEMENT

Poor user interface and lack of features, forcing traders to expose exchange APIs to paid platforms like Coinigy

TRADING REPORTS

No profit & loss reporting tools

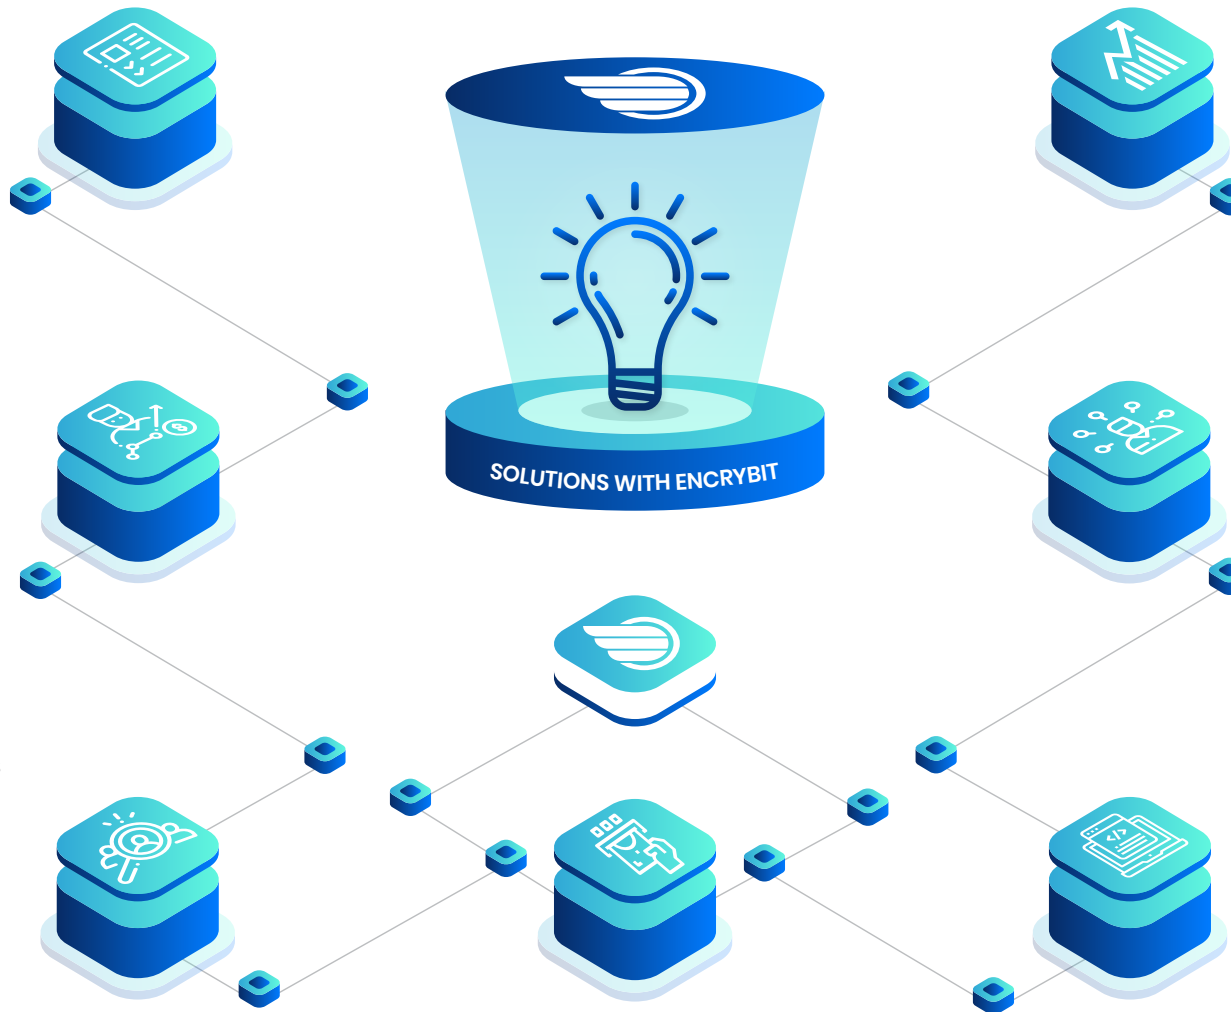

THE ENCRYBIT SOLUTION

ENCRYPBIT FEATURES

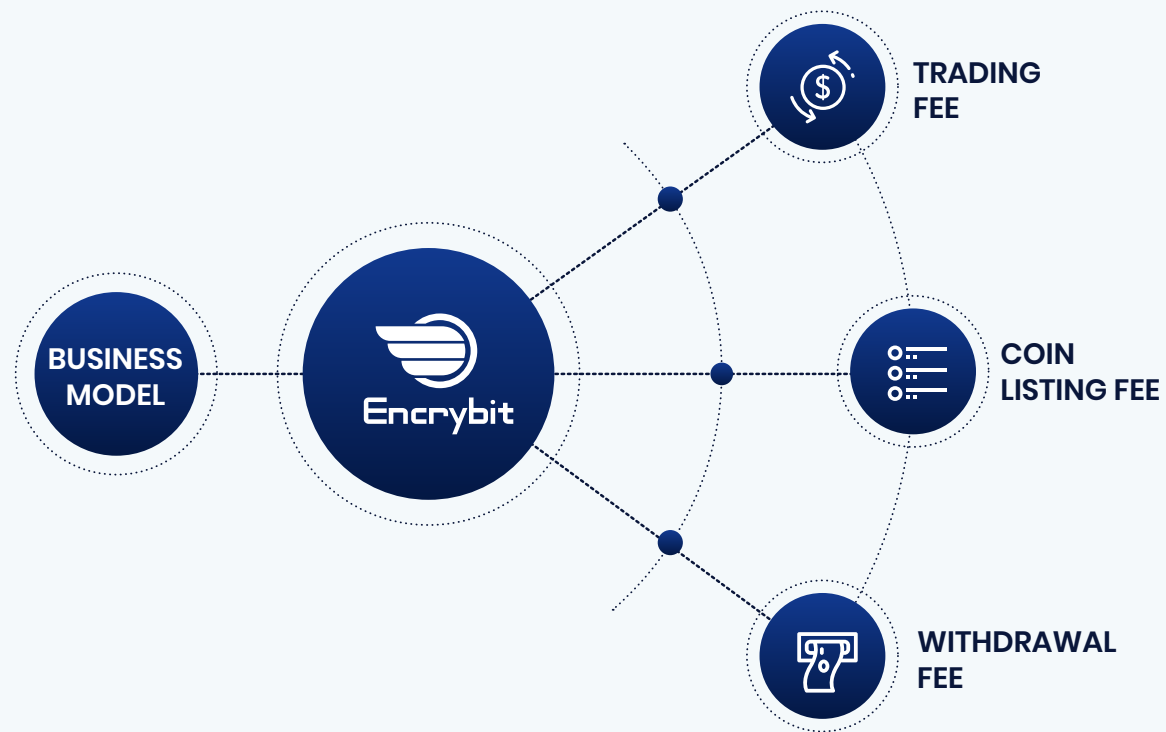

TOTAL CRYPTO EXCHANGE REVENUE (per day)

ENCRYBIT REVENUE MODEL

Encrybit revenue model includes the small amount of fees coming from various transaction and coin listing fee.

ENCRYBIT EXPECTED EXCHANGE SHARE BY 2021

Encrybit to acquire 10% shares from the crypto exchange revenues by 2021.

THE ENCRYBIT ICO

Encrybit is preparing to launch an exchange with a unique ideas to simplify and enhance the trading experience in terms of the trading software platform. Right now, we are finalising the white paper along with the exchange prototype.

We are also planning to conduct an opinion gathering survey starting July 17, 2018. The target audience for this survey will be cryptocurrency traders.

TEAM BACKGROUND

The Encrybit management team includes the CEO and the COO, both founding members of M-Connect Solutions, a software development company established in the year 2009 and incorporated in India and Texas, USA.

M-Connect Solutions is an established solution provider and is well known for the high standard of its support policies. With agile methodology expertise, the founders of M-Connect Solutions entered the blockchain market in 2015 as a blockchain development agency.

CEO of M-Connect Solutions, Mr. Jiten Rajput, a professional player in the IT industry, started researching the growth of the cryptocurrency marketplace and established a team in 2017 to analyse business opportunities in the crypto space.

Ultimately, the team decided to build upon their existing experience and started work on creating a modern and fully functional crypto trading platform. At the beginning of 2018, the idea for the Encrybit exchange was finalized and work on the prototype was commenced.

A design prototype will be launched for the public along with the whitepaper when the ICO website goes live.
